I. BACKGROUND

The City of San Antonio's Capital Improvements Management Services Department (CIMS) is seeking a qualified consultant, on behalf of the San Antonio Animal Care Services Department, for the design of the Animal Care Spay & Neuter Adoption Facility to be located at 210 Tuleta, Antonio, Texas 78212. The project scope will provide a centrally located facility for animal adoption, spay/neuter surgery and community education at the site of the City's former Animal Care Facility near the Zoo. This new facility will be a major component of the City's effort to become a "No Kill" community for dogs and cats.

Phase I of this project will consist of the design and construction of the facility with adoption, spay/neuter capability, possibly some community education capability, and a parking lot. The current available funding for Phase 1 of the project is \$1,800,000 to include design, fees, project administration and construction. There is the possibility that major donors could contribute enough funds to design and construct Phase II to include the educational outreach / training facility, if not included in Phase I.

7. The selected consultant may be required to perform a traffic study will be necessary due to the current high volume of traffic in the area.

8. The proposed site which is approximately 1.7 to 2.1 acres requires surveying and platting services for design and construction of the spay/neuter and adoption center and necessary parking for the center.
